# THE WORD EQUITAS

## AEQUITAS

Aequitas is the Roman goddess of equity and fairness, often depicted holding a pair of scales. At times, she is shown also holding a cornucopia, which symbolises abundance and wealth. At Aequitas, we strive to conduct ourselves in a fair and equitable manner.

- Based on a multibagger approach, we pursue a single investment strategy, which has consistently outperformed the markets

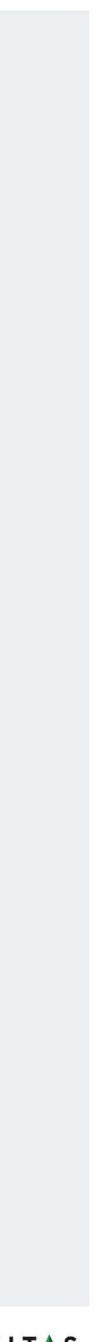

### FOCUS AND PROFESSIONAL DISCIPLINE

- MULTIBAGGER APPROACH
- **PROCESS FLOW**
- PORTFOLIO CONSTRUCTION
- WHY SMALL CAPS
- **SELECTION CRITERION**

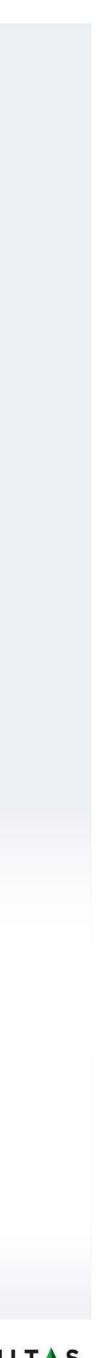

# FOCUS AND PROFESSIONAL DISCIPLINE

## WE AVOID

- Impulsive decisions
- Being influenced by financial news channels and platforms
- Acting on market movements
- Chasing winners or hot stocks
- Trading and short-term investments
- Derivatives

### **RED FLAGS**

- Low promoter holdings
- Poor corporate governance
- High institutional ownership
- Leverage
- Fad / hot sectors
- Expensive valuations
- IPOs
- QIPs / Secondary equity sales

## MULTIBAGGER APPROACH

# **GROWTH**

The company has to be a growth company with above-average growth potential for the next 3-5 years. Markets reward a higher PE multiple for growth companies.

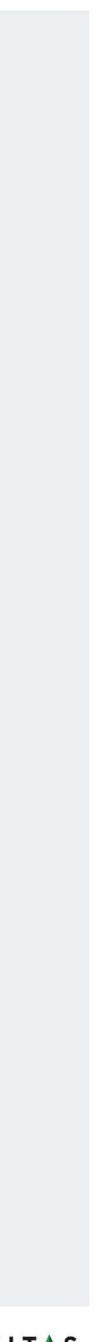

## CONTRARIAN

Contrarian approach does not mean doing the opposite of others, rather, it means doing things differently. Buying in popular names will not provide multibagger returns.

## VALUE

The valuation has to be reasonable. This is important because there has to be potential for re-rating. A combination of EPS growth and PE re-rating leads to multibagger returns.

## **PROCESS FLOW**

ONGOING RESEARCH

**PORTFOLIO CONSTRUCTION** 

We invest in quality companies with a focus on small and Mid cap growth companies.

Most market participants focus on price; we focus on company fundamentals.

We aim to construct a portfolio of around 20 stocks across various sectors.

Invest with a 3-5 year horizon with a focus on low churn rate.

A value can remain a value for a long time. We actively look for catalysts that can lead to stock re-rating.

# **SELECTION CRITERION**

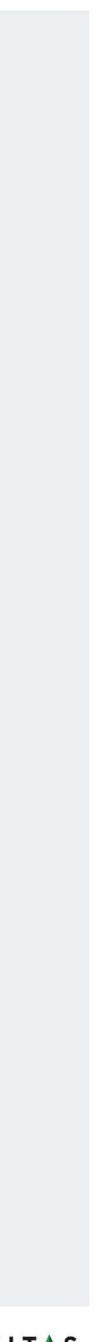

- Most of the companies in our portfolio are industry leaders with a strong sustainable competitive advantage
- Companies need to have very low debt levels and some of the companies are in fact net cash positive
- A good dividend paying record, corporate governance practices & a sound long-term performance record is a must.
- The portfolio PE ratio is lesser than market PE ratios (adjusted for cyclicality in earnings).
- Majority of our companies have done buy-back / creeping acquisition in the 12 months prior to our initial acquisition.
- Our portfolio includes companies with strong and consistent cash flow generation.

Risk is not a number, rather, it is a concept or notion. Risk equates to what Ben Graham called a "permanent loss of capital".

# **BALANCE SHEET RISK**

The risk of an overleveraged balance sheet which is ignored during good times in favour of the cyclic high and unsustainable earnings.
