THE WORD **EQUITY**”

ORIGINATES FROM THE
LATIN WORD AEQUITAS

AEQUITAS

Aequitas is the Roman goddess of equity and fairness, often depicted holding a pair of scales. At times, she is shown also holding a cornucopia, which symbolises abundance and wealth. At Aequitas, we strive to conduct ourselves in a fair and equitable manner.

OUR PMS PERFORMANCE

Internal Rate of Return	XIRR%
Maximum XIRR of the investment approach	46.89
Minimum XIRR of the investment approach	0.11
Median XIRR of the investment approach	28.52

- Returns over 1 year period are on a compounded annual basis; returns are adjusted for inflows/outflows and are after expenses as of 30th November 2025
- Please note that the performance of an individual portfolio may vary from that of other investors and that generated by the Investment Approach across all investors because of
 - The timing of inflows and outflows of funds
 - Differences in the portfolio composition because of restrictions and other constraints. Absolute XIRR return is computed for clients completing less than 1 year from the reporting date.
- Performance-related information provided herein is not verified by the regulator

The chart depicts absolute values over time since inception; returns are adjusted for inflows/outflows and are after expenses; 30th Nov 2025

WHY CHOOSE US?

One of India's top performing Funds

Long term strategy aimed at wealth creation

Multibagger Approach

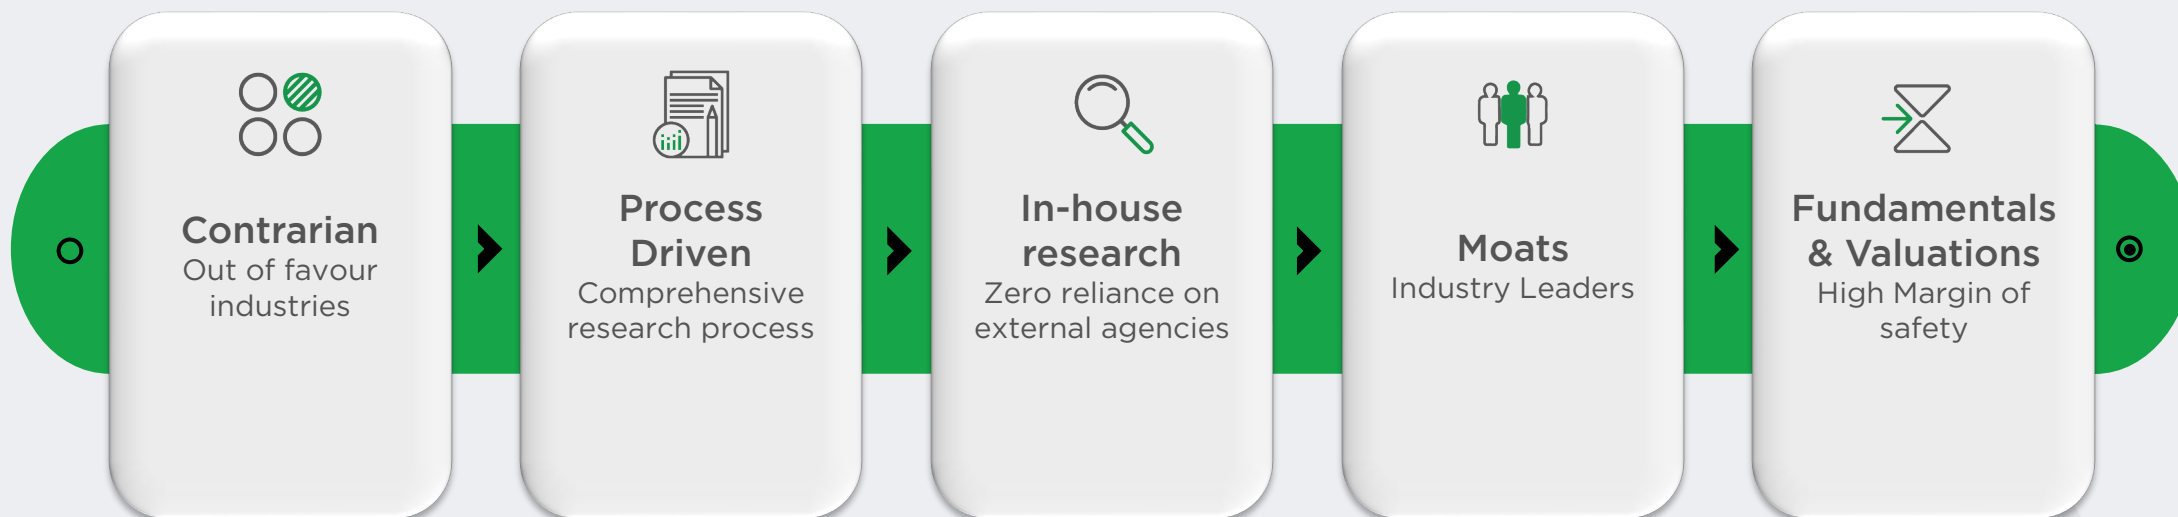

One on One relationships with clients, no distributors

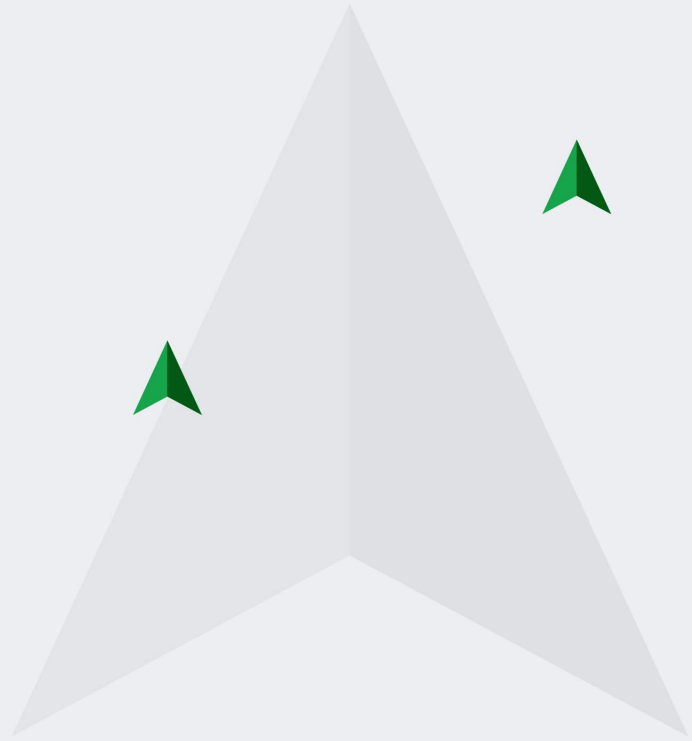

Low churn ratio & low transaction cost

Bespoke Portfolios, Not off the rack model portfolios

OUR FORTE

INVESTMENT PHILOSOPHY

MULTIBAGGER APPROACH

VALUE

The Valuation has to be reasonable. This is important because there has to be potential re-rating. A combination of EPS growth and P/E-rerating leads to multibagger returns.

CONTRARIAN

Contrarian approach does not mean doing the opposite of others, it rather means doing things differently. Buying in popular names will not provide multibagger returns.

GROWTH

The company has to be a growth company with above average growth potential for the next 3-5 years. Markets reward a higher P/E multiple for growth companies

FOCUS AND PROFESSIONAL DISCIPLINE

We Avoid

- Impulsive Decisions
- Being influenced by financial news channels and platforms
- Acting on market movements
- Chasing hot stocks
- Trading and short term investments
- Derivatives

Red Flags

- Low promoter holdings
- Poor corporate governance
- High institutional ownership
- Leverage
- Fad/Hot sectors
- Expensive valuations
- IPOs
- QIPs/Secondary equity sales

SELECTION CRITERIA

INDUSTRY LEADERS

Most of the companies in our portfolio are industry leaders with a strong sustainable competitive advantage

LOW DEBT

Companies need to have low to negligible debt. Some of the companies are net cash positive

MANAGEMENT

A good dividend paying record, corporate governance practices & a sound long term performance record is a must

VALUATIONS

Portfolio P/E ratio is less than the market P/E ratios (adjusted for cyclicalities in earnings)

CREEPING ACQUISITIONS/BUYBACKS

Majority of our companies have done buyback / creeping acquisition in the 12 months prior to our initial acquisition

CASH FLOW

Our portfolio includes companies with strong and consistent cash flow generation

OUR MULTIBAGGER PICKS

RISK MANAGERS

VALUATION RISK

Risk of buying stocks without adequate margin of safety. Reasonable valuations are the cornerstone of all our investments. The average P/E for the fund is likely to be less than 20x.

EARNINGS RISK

Risk that current earnings could decline due to technological changes, economic changes or deterioration in management. The earnings adjusted for cyclicity would most likely be at the bottom of the cycle.

BALANCE SHEET RISK

The risk of an overleveraged balance sheet which is ignored during good times in favor of the cyclic high and unsustainable earnings. The fund would aim to have companies with zero to negligible debt and strong operational cash flows.
